

The American Journal of CLINICAL NUTRITION

*A Publication of The American Society
for Nutrition*

MAY 2006 • VOLUME 83 • NUMBER 5

WWW.AJCN.ORG

ISSN 0002-9165

EDITORIALS

Alternatives to low-fat diets. *MB Katan*
See corresponding article on page 1025. **989**

Zinc and pneumonia. *KM Hambidge*
See corresponding article on page 1089. **991**

REVIEW ARTICLE

Folate and human reproduction. *T Tamura and MF Picciano* **993**

ORIGINAL RESEARCH COMMUNICATIONS

Obesity and eating disorders

Ultradian ghrelin pulsatility is disrupted in morbidly obese subjects after weight loss induced by malabsorptive bariatric surgery. *G Mingrone et al* **1017**

Lipids

Separate effects of reduced carbohydrate intake and weight loss on atherogenic dyslipidemia. *RM Krauss et al*
See corresponding editorial on page 989.
See corresponding CME exam on page 1205. **1025**

Withdrawal of red meat from the usual diet reduces albuminuria and improves serum fatty acid profile in type 2 diabetes patients with macroalbuminuria. *VDF de Mello et al* **1032**

Cardiovascular disease risk

Consumption of coffee is associated with reduced risk of death attributed to inflammatory and cardiovascular diseases in the Iowa Women's Health Study. *LF Andersen et al* **1039**

Nutritional status, dietary intake, and body composition

Evaluation of Lunar Prodigy dual-energy X-ray absorptiometry for assessing body composition in healthy persons and patients by comparison with the criterion 4-component model. *JE Williams et al* **1047**

Ketogenic low-carbohydrate diets have no metabolic advantage over nonketogenic low-carbohydrate diets. *CS Johnston et al* **1055**

Small organs with a high metabolic rate explain lower resting energy expenditure in African American than in white adults. *D Gallagher et al* **1062**

Energy and protein metabolism

Negative energy balance in male and female rangers: effects of 7 d of sustained exercise and food deprivation. *RW Hoyt et al* **1068**

Positive association between resting energy expenditure and weight gain in a lean adult population. *A Luke et al* **1076**

Diets rich in Maillard reaction products affect protein digestibility in adolescent males aged 11–14 y. *I Seiquer et al* **1082**

Vitamins, minerals, and phytochemicals

Efficacy of zinc in the treatment of severe pneumonia in hospitalized children <2 y old. *A Bose et al*
See corresponding editorial on page 991.
See corresponding CME exam on page 1207. **1089**

A furanocoumarin-free grapefruit juice establishes furanocoumarins as the mediators of the grapefruit juice–felodipine interaction. *MF Paine et al* **1097**

Pregnancy and lactation

Adiponectin is present in human milk and is associated with maternal factors. *LJ Martin et al* **1106**

Growth, development, and pediatrics

Effect of iron supplementation during pregnancy on the intelligence quotient and behavior of children at 4 y of age: long-term follow-up of a randomized controlled trial. *SJ Zhou et al* **1112**

Immunity

Soy isoflavones modulate immune function in healthy postmenopausal women. *TA Ryan-Borchers et al* **1118**

Cancer

Association between fruit and vegetable consumption and oral cancer: a meta-analysis of observational studies. *M Pavia et al* **1126**

AIDS and other wasting syndromes

Vitamin D status in adolescents and young adults with HIV infection. *CB Stephensen et al* **1135**

Aging

Frailty syndrome and skeletal muscle: results from the Invecchiare in Chianti study. *M Cesari et al* **1142**

Unbalanced serum leptin and ghrelin dynamics prolong postprandial satiety and inhibit hunger in healthy elderly: another reason for the “anorexia of aging”. *V Di Francesco et al* **1149**

Nutritional epidemiology and public health

A population-based study of the association between betel-quid chewing and the metabolic syndrome in men. *AM-F Yen et al* **1153**

Continued on Table of Contents inside

SUPPLEMENT

Dietary Reference Intakes (DRIs) for Food Labeling **1211S**

A Publication of The American Society for Nutrition

- *AJCN* has the highest ISI impact among peer-reviewed nutrition and dietetics journals.
- Each month, *AJCN* provides the very latest original research in human nutrition.

SUBSCRIPTION INFORMATION 2006

Subscription rates include *AJCN* online access!

	USA	INTERNATIONAL	
		Mexico & Canada	Elsewhere
Individual Online	175.00	175.00	175.00
Individual Online & Print	200.00	225.00	250.00
Institutional Online	400.00	400.00	400.00
Institutional Online & Print	415.00	440.00	465.00
Student Online	60.00	60.00	60.00
Student Online & Print	85.00	110.00	135.00

Subscriptions are eligible to claim two missing issues per calendar year. Prepayment on international orders is required. Checks must be in U.S. dollars and drawn on a U.S. bank. International subscriptions are shipped by expedited mail. Students must provide certification. EIN# 84-6036974
