

The American Journal of
CLINICAL NUTRITION

VOLUME 25 NUMBER 5 MAY 1972

CONTENTS

letters to the editor

- 463 "Fructose absorption in man." *H. F. Sassoon*
463 The author replies. *G. C. Cook*
464 Fiber: a natural hypocholesteremic agent. *H. Trowell*
465 "The responsibility of a professional society." *J. Mayer*

brief communications

- 467 Response of lactose-intolerant children to different lactose levels. *D. M. Paige, E. Leonardo, J. Nakashima, B. Adrianzen T. and G. G. Graham*

original communications

- ✱ 470 Effects of simple and complex carbohydrates on serum lipids and atherosclerosis in nonhuman primates. *C. M. Lang and C. H. Barthel*
476 Serum electrolytes in undernourished Sinclair(S-1) miniature swine. *M. E. Tumbleson, M. F. Burks, P. S. Evans and D. P. Hutcheson*
480 Levels of vitamin E in the plasma of newborn infants and of the mothers. *P. J. Leonard, E. Doyle and W. Harrington*
✱ 485 Progressive protein undernutrition and intestinal enzyme activities in monkeys. *V. Kumar and H. P. Chase*
490 Impairment of D-xylose absorption in Zambian patients with systemic bacterial infections. *G. C. Cook*
494 Effects of dietary vitamin B deficiency and oral contraceptives on the spontaneous urinary excretion of 3-hydroxyanthranilic acid. *S. A. Price, D. P. Rose and P. A. Toseland*
499 Patterns of insulin response to glucose in protein-calorie malnutrition. *D. J. Becker, B. L. Pimstone, J. D. L. Hansen, B. MacHutchon and A. Drysdale*
506 Effect of spacing protein intake on nitrogen balance in normal children. *I. Barja, H. Araya, P. Muñoz, L. Vega, A. Arteaga and M. A. Tagle*
512 Blood, urine, and dietary pantothenic acid levels of pregnant teenagers. *S. H. Cohenour and D. H. Calloway*

(continued on inside cover)

(continued from back cover)

perspectives in nutrition

- 518 The human requirement of calcium: should low intakes be supplemented?
A. R. P. Walker

methods in nutrition

- *531 Preparation of ^{131}I -labeled fat emulsions and distribution of the label in serum lipoproteins and lipid classes following intravenous infusion to normal and hyperlipemic subjects. *G. Lakshminarayana, P. W. O'Connell, F. A. Kruger, G. J. Hamwi and D. G. Cornwell*

international nutrition

- 539 Urinary urea nitrogen/creatinine ratio as indicator of recent protein intake in field studies. *W. K. Simmons*
