

The American Journal of  
**CLINICAL NUTRITION**

VOLUME 40 NUMBER 4 OCTOBER 1984

**CONTENTS**

**Original Research Communications—rapid**

- 743 Effect of zinc supplementation on copper status in adult man. *PWF Fischer, A Giroux, and MR L'Abbé*
- 747 Vitamin E is delivered to cells via the high affinity receptor for low-density lipoprotein. *MG Traber and HJ Kayden*

**Original Research Communications—general**

- 752 A comparative study of the efficiency of intragastric and parenteral nutrition in man. *K Bennegård, L Lindmark, I Wickström, T Scherstén, and K Lundholm*
- 758 Hydrogen gas excretion after sucrose gavage in the fasted rat. *GC Griffin, LK Kwong, JS Morrill, HJ Vreman, and DK Stevenson*
- 763 Effect of different linoleic acid intakes on prostaglandin biosynthesis and kidney function in man. *O Adam and G Wolfram*
- 771 Absorption of nutrient energy in Southern Indian control subjects and patients with tropical sprue. *A Chacko, A Begum, and VI Mathan*
- 776 The effects of sorghum and wheat bran on the colonic functions of healthy Sudanese subjects. *SS Fedail, S-EM Badi, and ARM Musa*
- 780 Will dietary  $\omega$ -3 fatty acids change the composition of human milk? *WS Harris, WE Connor, and S Lindsey*

**Original Research Communications—surveys**

- 786 Sodium and potassium intake and balance in adults consuming self-selected diets. *JT Holbrook, KY Patterson, JE Bodner, LW Douglas, C Veillon, JL Kelsay, W Mertz, and JC Smith, Jr*
- 794 Vitamin A status of the newborn in relation to gestational age, body weight, and maternal nutritional status. *RS Shah and R Rajalakshmi*
- 801 Influence of growth status and placental function on birth weight of infants born to young still-growing teenagers. *AR Frisancho, J Matos, and LA Bollettino*
- 808 New standards of weight and body composition by frame size and height for assessment of nutritional status of adults and the elderly. *AR Frisancho*
- 820 Comparison of the fat content and fat globule size distribution of breast milk from mothers delivering term and preterm. *C Simonin, M Rüegg, and D Sidiropoulos*
- 827 Diet, smoking, social class, and body mass index in the Caerphilly Heart Disease Study. *AM Fehily, KM Phillips, and JWG Yarnell*

**Original Research Communications—methods**

- 834 Total body composition by dual-photon ( $^{153}\text{Gd}$ ) absorptiometry. *RB Mazess, WW Pepler, and M Gibbons*

(continued on inside cover)

(continued from back cover)

- 840 Radioisotopic studies concerning the efficacy of standard washing procedures for the cleansing of hair before zinc analysis. *RA Buckley and IE Dreosti*
- 847 Nutritional assessment by isotope dilution analysis of body composition. *DJ Szeluga, RK Stuart, V Utermohlen, and GW Santos*

### **Special Articles**

- 855 Report on Clinical Nutrition Research Units. *GF Combs, ME Auld, L Gardner, and WD DeWys*
- 865 Recommended therapeutic guidelines for professional weight control programs. *RL Weinsier, TA Wadden, C Ritenbaugh, GG Harrison, FS Johnson, and JH Wilmore*

### **Letter to the Editor**

- 873 The size of California nonmigrant Mexican-American children. *RB Bradfield and N Staehling*
- 875 **Book Review**
- 877 **Announcements**
