

The American Journal of CLINICAL NUTRITION

VOLUME 88 NUMBER 1 JULY 2008

Perspective

- 1 Alternatives for macronutrient intake and chronic disease: a comparison of the OmniHeart diets with popular diets and with dietary recommendations. *RJ de Souza, JF Swain, LJ Appel, and FM Sacks*

Editorials

- 12 Flavonoids and cardiovascular health: which compounds, what mechanisms? *JM Geleijnse and PCH Hollman*
See corresponding article on page 38.
- 14 Defining dietary consumption: is the sum greater than its parts? *ML Slattery*
See corresponding articles on pages 64, 176, and 185.

Original Research Communications

Obesity and eating disorders

- 16 Relation between alanine aminotransferase concentrations and visceral fat accumulation among nondiabetic overweight Korean women. *HR Song, KE Yun, and HS Park*
- 22 Appetite and adiposity in children: evidence for a behavioral susceptibility theory of obesity. *S Carnell and J Wardle*

Lipids

- 30 Postprandial triglyceride responses to aerobic exercise and extended-release niacin. *EP Plaisance, ML Mestek, AJ Mahurin, JK Taylor, J Moncada-Jimenez, and PW Grandjean*

Cardiovascular disease risk

- 38 Flavonoids, flavonoid-rich foods, and cardiovascular risk: a meta-analysis of randomized controlled trials. *L Hooper, PA Kroon, EB Rimm, JS Cohn, I Harvey, KA Le Cornu, JJ Ryder, WL Hall, and A Cassidy*
See corresponding editorial on page 12.
- 51 Endothelial function after high-sugar-food ingestion improves with endurance exercise performed on the previous day. *EP Weiss, H Arif, DT Villareal, E Marzetti, and JO Holloszy*
- 58 Acute dark chocolate and cocoa ingestion and endothelial function: a randomized controlled crossover trial. *Z Faridi, VY Njike, S Dutta, A Ali, and DL Katz*

Nutritional status, dietary intake, and body composition

- 64 Modifications to the Healthy Eating Index and its ability to predict obesity: the Multi-Ethnic Study of Atherosclerosis. *SK Gao, SAA Beresford, LL Frank, PJ Schreiner, GL Burke, and AL Fitzpatrick*
See corresponding editorial on page 14.
- 70 Selenium status of term infants fed selenium-supplemented formula in a randomized dose-response trial. *L Daniels, RA Gibson, K Simmer, P Van Dael, and M Makrides*
- 77 Bolus tube feeding suppresses food intake and circulating ghrelin concentrations in healthy subjects in a short-term placebo-controlled trial. *RJ Stratton, RJ Stubbs, and M Elia*
- 84 Effects of energy density and feeding frequency of complementary foods on total daily energy intakes and consumption of breast milk by healthy breastfed Bangladeshi children. *MM Islam, M Khatun, JM Peerson, T Ahmed, MAH Mollah, KG Dewey, and KH Brown*
- 95 Lifestyle factors associated with age-related differences in body composition: the Florey Adelaide Male Aging Study. *E Atlantis, SA Martin, MT Haren, AW Taylor, and GA Wittert for the Florey Adelaide Male Aging Study*

(continued)

- 105 Folate and cobalamin status in relation to breastfeeding and weaning in healthy infants. *G Hay, C Johnston, A Whitelaw, K Trygg, and H Refsum*

Energy and protein metabolism

- 115 Total sulfur amino acid requirement and metabolism in parenterally fed postsurgical human neonates. *G Courtney-Martin, KP Chapman, AM Moore, JH Kim, RO Ball, and PB Pencharz*
- 125 Gene expression profiling of human skeletal muscle in response to stabilized weight loss. *D Larrouy, P Barbe, C Valle, S Déjean, V Pelloux, C Thalamas, J-P Bastard, A Le Bouil, B Diquet, K Clément, D Langin, and N Viguerie*

Vitamins, minerals, and phytochemicals

- 133 Vitamin D insufficiency in a multiethnic cohort of breast cancer survivors. *ML Neuhouser, B Sorensen, BW Hollis, A Ambis, CM Ulrich, A McTiernan, L Bernstein, S Wayne, F Gilliland, K Baumgartner, R Baumgartner, and R Ballard-Barbash*
- 140 Relation between pyridoxal and pyridoxal phosphate concentrations in plasma, red cells, and white cells in patients with critical illness. *AT Vasilaki, DC McMillan, J Kinsella, A Duncan, DSJ O'Reilly, and D Talwar*

Pregnancy and lactation

- 147 Association between short interpregnancy intervals and term birth weight: the role of folate depletion. *M van Eijsden, LJM Smits, MF van der Wal, and GJ Bonsel*
- 154 Maternal zinc supplementation and growth in Peruvian infants. *LL Iannotti, N Zavaleta, Z León, AH Shankar, and LE Caulfield*

Growth, development, and pediatrics

- 161 Classification of malnutrition in cystic fibrosis: implications for evaluating and benchmarking clinical practice performance. *HJ Lai and SM Shoff*
- 167 Fish oil intake compared with olive oil intake in late pregnancy and asthma in the offspring: 16 y of registry-based follow-up from a randomized controlled trial. *SF Olsen, ML Østerdal, JD Salvig, LM Mortensen, D Rytter, NJ Secher, and TB Henriksen*

Cancer

- 176 Dietary patterns as identified by factor analysis and colorectal cancer among middle-aged Americans. *A Flood, T Rastogi, E Wirfält, PN Mitrou, J Reedy, AF Subar, V Kipnis, T Mouw, AR Hollenbeck, M Leitzmann, and A Schatzkin*
See corresponding editorial on page 14.

Nutritional epidemiology and public health

- 185 A priori-defined dietary patterns and markers of cardiovascular disease risk in the Multi-Ethnic Study of Atherosclerosis (MESA). *JA Nettleton, MB Schulze, R Jiang, NS Jenny, GL Burke, and DR Jacobs Jr*
See corresponding editorial on page 14.
- 195 Relations between dietary sodium and potassium intakes and mortality from cardiovascular disease: the Japan Collaborative Cohort Study for Evaluation of Cancer Risks. *M Umesawa, H Iso, C Date, A Yamamoto, H Toyoshima, Y Watanabe, S Kikuchi, A Koizumi, T Kondo, Y Inaba, N Tanabe, A Tamakoshi, and the JACC Study Group*
- 203 Markers of dietary fat quality and fatty acid desaturation as predictors of total and cardiovascular mortality: a population-based prospective study. *E Warensjö, J Sundström, B Vessby, T Cederholm, and U Risérus*
- 210 Phylloquinone intake, insulin sensitivity, and glycemic status in men and women. *M Yoshida, SL Booth, JB Meigs, E Saltzman, and PF Jacques*
- 216 Blood concentrations of individual long-chain n-3 fatty acids and risk of nonfatal myocardial infarction. *Q Sun, J Ma, H Campos, KM Rexrode, CM Albert, D Mozaffarian, and FB Hu*
- 224 Tea consumption and cognitive impairment and decline in older Chinese adults. *T-P Ng, L Feng, M Niti, E-H Kua, and K-B Yap*

Gene-nutrient interactions

- 232 Prevalence and effects of gene-gene and gene-nutrient interactions on serum folate and serum total homocysteine concentrations in the United States: findings from the third National Health and Nutrition Examination Survey DNA Bank. *Q-H Yang, LD Botto, M Gallagher, JM Friedman, CL Sanders, D Koontz, S Nikolova, JD Erickson, and K Steinberg*

(continued)

Letters To The Editor

- 247 Dietary betaine and inflammation. *S Slow, J Elmslie, and M Lever*
- 248 Reply to S Slow et al. *P Detopoulou, D Panagiotakos, S Antonopoulou, C Pitsavos, and C Stefanadis*
- 248 Triglyceride concentrations and endotoxemia. *J Rood and SR Smith*
- 249 Reply to J Rood and SR Smith. *C Erridge, CM Spickett, T Attina, and DJ Webb*
- 250 **Errata**
- 251 **Notice of duplicate publication**
- i **Calendar of Events**
